

Important:

- Make sure power is disconnected during installation or maintenance
- Do not attempt installation in wet or severe weather conditions
- Keep cables protected from sharp objects to prevent damage
- Make sure unconnected fixtures are not exposed to raining/ snowing environment

For waterproof connection make sure that the last fixture has the endcap connector fixed to the last output connector

When the XT modules will be mounted into panels make sure the Panel ring is fixed between the module and the backside of the panel. The Globe, Turbo or Tube cover can be fixed from the front.
