

HELIOS HANDLE

DATASHEET

Description

The Helios handle can be screwed onto the Helios Tube so that it can be held and aimed at people or objects when filming.

It also has a babyplug attached so that it can be mounted.

Note

It is designed only for Helios Tube (FP2), for longer tubes the leverage could be too high for the integrated thread.

Specifications

Product reference

FP2-HND

Size

Ø42.5mm x 175mm

Material

Stainless steel + ABS

Weight

0.35kg

Can hold

1 Helios Tube (FP2)

Support Thread

Babyplug
